

## Washington Township Road Department

Howard Gant

Road Supervisor

Randy Beck

Assistant Road Supervisor

The safety of Washington Township residents is of the utmost concern for the Washington Township Trustees, Road Department, and Police Department. Every effort is taken to ensure that all township roads will be plowed of snow and ice in a timely manner using all resources the township has.

We maintain only the roads that are under the jurisdiction of Washington Township. The Logan County Engineer's Office maintains all county roadways and the Ohio Department of Transportation maintains the state roads and federal highways.

The Township Trustees and Road Department Supervisor monitor the roads and conditions and make the determination as to when and how many trucks will be sent out to plow and salt the roads.

The amount will vary according to weather, road conditions and forecasts. Every effort will be made to treat hills, bridges, intersections first and the rest will follow as quickly and safely as possible. We will get to every road in Washington Township...please be patient as we keep everyone's safety in mind during difficult weather.
